## A LEGENDARY GIN EXPERIENCE

Travel back in time to a more civilized era. A time when men savored the finest things in life while ensconced in leather Chesterfields, and women maintained an attitude of worldly elegance with effortless grace.

Bone Dry Gin is a London Dry style gin that reminds its patrons of the classic age of cocktails...an era when gin was sipped slowly.

Bone Dry is a wheat based gin made from over a dozen botanicals with a strong juniper presence. Its rich flavor has smoky characteristics and a complex finish.

Whether sharing a nightcap during a great romance or while conspiring to conquer your enemies, savor the legendary experience of Bone Dry Gin.
